PROFILE

Web Developer and AI Automation Specialist with experience building responsive websites, CMS pages, workflow automations, and AI-powered systems that help businesses reduce manual work. Skilled in WordPress, Elementor, Squarespace, HTML, CSS, JavaScript, n8n, Make, Zapier, OpenAI, Google Workspace, and API integrations. My background in web development, technical operations, and process improvement allows me to build practical solutions that are easy for teams to use and maintain.

WORK EXPERIENCE

Freelance Web Developer & Automation Consultant

Project-Based | August 2025 - June 2026

Built websites, landing pages, and workflow automations for businesses that needed a stronger online presence and more efficient internal processes.

- Designed and developed responsive websites and landing pages using WordPress, Elementor, Squarespace, HTML, CSS, and JavaScript.
- Integrated forms, booking tools, payment gateways, email notifications, chat widgets, and third-party applications.
- Built workflow automations using Make, Zapier, Google Workspace, and API-based integrations.
- Worked directly with clients to understand business needs and deliver practical, user-friendly solutions.

Tools Used: WordPress, Elementor, Squarespace, HTML, CSS, JavaScript, Make, Zapier, Google Workspace, APIs

Technical Operations Specialist

The HuntingLab | October 2023 - July 2025

Supported recruitment and business operations by improving websites, internal workflows, documentation, and technical systems.

- Designed, developed, and maintained company websites using WordPress, Elementor, custom CSS, forms, chatbot integrations, and analytics tools.
- Improved internal workflow systems using Google Sheets, Google Workspace, Jotform, Tally Forms, and task management tools.
- Supported recruitment operations by organizing candidate tracking, internal processes, and reporting workflows.
- Created SOPs and process documentation to make team workflows easier to follow and maintain.
- Managed Google Workspace admin tasks including user account setup, permissions, account deactivation, and data transfers.
- Worked closely with leadership to identify operational bottlenecks and implement practical process improvements.
- Assisted with website performance checks, SEO-related updates, Google Analytics, and Google Search Console monitoring.

Tools Used: WordPress, Elementor, Google Workspace, Google Sheets, Jotform, Tally Forms, Trello, Google Analytics, Google Search Console

- **Development Foundation:**
